Hong Kong
July 5 1837

Dear Mr. Barker,

I have myself undertaken the task of writing some account of the new corona island for the Indian Society. You can do it as to finish our other correspondence. Will you oblige me by sending it?

By the way - you proposed to suggest something on the improvement of the constitution of the said society. Favor me with your views.

I hope to hear from you soon.

Yours sincerely,

W. Smith Barker
y what has taken place at
Park Chaw between your
creeping ants and the Chinese.
Will you tell me confidentially
the true state of things, and
what you are doing there to
do? We have also a question
with our missionary who is
so cold and uninterested, but who
is as you can imagine, within
our city.

Thank remember, I
hope the (a) is not too wise
for the missionaries to see on
arriving back.

M. H. W. H.
