Boston, Sept. 21st, 1838.

My dear Sir,

In great haste, I acknowledge very thankfully your abundant kindness in the package sent me through Mr. Dewhurst; which would have been acknowledged long since, but that I have been repeatedly disappointed of an expected engraving. They all came safe, & were very acceptable.

Through the goodness of GOD I have been permitted to complete the Commentary, of which a copy, with the Supplement, 6 vols. in all, is sent for your acceptance.

Be pleased to distribute to the gentlemen I address at the same time, the letters of books which are packed in the box except the little anatomical one of Dr. Alcot, which I have sent you. I thought it might suggest the list of a publication in Chinese, such as you have said was wanted, to give a popular view of the anatomy of the human body.

I ask a respectful affectionate remembrance to Mr. Gates, & praying that GOD of His infinite mercy, will guide, bless, & prosper the efforts of yourself & all your associates in the Mission, remain,

Your obliged grateful friend brother in Christ,

Wm. Jenkins.
I set Compr. Com. 6 vol. 2

& let me pay the cost of it?'

Please refer with Mr. Morrison.
