Health permitting I may attending the New Bridge on the day of Mr. Eichel's trial to Jericho. In the evening I shall be at the house of Mr. H. at 7 o'clock for prayer.

Plan of the next Recorder for tomorrow.

1. The object of this short passage is to address the people of God on the subject of prayer. Prayer is the great means to be put in exercise, but in a meeting of the family of the people it is a matter of course which claims our attention also. To pray constantly is necessary; daily at early and late, or any time in the day. But this is something else for us to pray for. We are not only to pray the Lord of the hea, to send forth liberty in to his kingdom, but some of us may trust but our own hands to the plan.

2. I wish them my young friends to address to the subject of your personal privileges. In former times I was accustomed to speak to you on this in your places of the morning work, but it was then an entirely work. I now wish to thank you for it as a work that I have had some experience. As I come to tell you it is a blind work. I cannot do better. I pray that I may prosecute long to end my days in it. In respect to your inquiring
after the path of duty. It is better to err, for in doing so, you
and better to have borne it courageously, to go, or whether it is the will of the Great Head of
the Church that you should do. I wish to return to
your remaining on your own experience with
that subject. And just let me say do not
be afraid of the subject. Remember the moral
courage to welcome the will of God to your business.
Do not be afraid to bring the matter forcibly,
it is your privilege to go. Then your may
approach the Saviour, which otherwise you could
not with the same propriety. And just let me say
that God is faithful to his promises. Off all
that he has promised in his Gospel, not one
thing has failed. For peculiar trials, he has
provided peculiar blessings. joy with which
the stronger is indescribable.
He who is faithful. I trust, will be with you when
your back from the embrace of dear relations.
When the calm touches your dear relations
When the tempest rages, God will not desert
you. The winds at his bidding shall blows again,
or the storms of tempest shall be hushed for the
God Jehovah is your helper. And when in a
leathern breast, all is sin and death, degenerate humanity
surround you, then your may flee to his Word to
His throne. It feel emotions unexperienced in the
Lord of God, Nativity.

I would gently, if I was present, tell you the reason for my absence from your activities, by the preaching need of the brethren, Introduce the Truth, Students of the Church, in the sublime of Bezo, 300 in Sumer, gluten, are compassion. 70 in the Sumer, you can now a vegetable diet. By the law of Christ if your own obligation, this duty is your... Dear Brother, you are not your own! You are Christ, by purchase of his blood, by voluntary surrender. Dear Brother, if you are sons of God indeed, then, to the utmost plenty of that man whom title to the Beatitudes is given. You are the Kingdom, you shall be comforted, shall in mount go to, shall be filled with righteousness, shall obtain mercy, shall see God, shall be filled in a cloud of full to clothe the Church, you shall inherit the Kingdom of God. And my dear brothers, with those who will any of you think from doing any thing or going any where that God do it, call me.

Political Consideration of the End
Address at the Central Ch. on the Occasion of the Concord for all the World. 4th. of Jan. 1841.

Rev. 2:9-11 27.

And when we confine our view to the present moment, or to the brief existence of any one man or generation, we feel ourselves but a thousand things in the Kingdom of provident grace, seem either impeneable, or insuperable. But when we can expand our views, or take in the past of the future, with the present, then our Spirit seem unfettered, the ebb and flow of Providence, the actual condition of the world, and be understood.

We thus begin to measure the long of God by our deficient ability, and learn that God's ways are not as ours. We see him governing the world by fixed laws, by doing all things when a divine or mighty hand. In the Prophesies of the best 1st Rev. Insta., we see the holy will of his mind and concerns our world.

We are reminded that God is infinitely adorning, we look to the past & find that the 5th Hebrew, Babylon, Greece and Roman Monarchies, according to this theory can built on it and find that a Kingdom theu comparable to all that I am gone before, is introduced in future...
The subject of attending to the Faith in China... encouraged me to accept the fact, the

that is to come. I at this closing day & look back

with inexpressible gratitude to God for his wisdom, a

grace in mercy bestowed upon his servant, & my

deferring goodness be shown to one equally indebted

in his decision to be formed.

I realize that deep reciprocal esteem affects are

the first indispensable link to our happiness & usefulness, & nothing can supply the want of that in

both as in me this & in the second place the important

thing is to ascertain whether that the prospect

is that the aggregate of our usefulness in the world

will be augmented by our united labors.

The conviction of my own mind is that a happy

judicious relation of this kind, with my present

imperfect, will be in the providence of God. The

mind of lengthening out my days, I of lengthen-

ing my influence in China & in the world, general-

ly.

Should God in his inestimable providence send

me back alone, then having completed my

mission, my mind will like a traveler go on,

I take my path ceased, like Rogers, my blood
will flow on in all other years. I now leave my home, something to some feeling for China, as I shall fully my place when I am done. Or gone.

But on the other hand, should God give me the desire of my heart, it will furnish a help next for me of the work, then He may be pleased to give me something or make us fruitful in all good things. I may experienced, the children of parents, and many have in our children, long after our firm has left to rise in another day, to go down again. Then what seasons of my life, how long, what commingling of spirit, what seasons of prayers, what seasons of watching, what promises, what promises by Ten- Lord, and before us! What joys, what trials, what labors are before us! Some of them I know already, having parted from dear relatives, some to meet no more on earth, and was beloved all, prays by Ten, promises by Lord, I know, but then will be new to the one that I shall go with me.

But God is faithful, His grace sufficient. The can calm the tempest, calm the agitated seas, and when he can calm the tempests, the winds to blow. He can do all things, I will supply all our need. Can prepare the way before us, and open his present in former ministring. He will open new fields for new labors. The the separations from friends will be bound and God can make them friends to rejoice forever in this forever with my friend, by the everlasting joy.
My previous is, that at once, the two independent
effects are formed, thus to lose no time, further
than Christian ministrations require, before the moment
is put to rest on this subject.

My feeling prompts me to return at once to China,
my judgment is clear in favor of remaining a
year to attend to study in the mean time, to the
preparation of two books for the press, then
returning deliberately, with healthy and sound
trust explained with grace. New aid in
my course, work I shall be prepared to accomplish
more for China ultimately than by hurrying back
two years. Besides which China remains in an un
settled state we cannot work to the good advantage,
and should the country be opened for more
labors, then it will be important to send some
acquainted with the situations of the country to
point out to young men of the Churches what
may be done useful to the cause.

Probably remain in Phil.

Was very happy in the morning, in view of the event of
yesterday I also to find that no light that entered into the
time of direst need, she is apparently equally thankful.

Attended the funeral of John T. Barber of Virginia, one
of the judges of the N. D. D. A. Who died suddenly a long
night before death. It was a solemn and affecting
scene.
Called on Dr. Howell, & informed him of the extent of the acquaintance formed with his niece, whom he regarded as a child. He alluded to her long time illness when all hope was lost, that excited fervent prayer personified in them. Her life was 39 days. Said it struck him at once when he was informed of my overture, that it was the Lord's doing & the way to heal, he would not throw any obstacles in the way.

Said the manner I had approached the subject was calculated to secularize the confidant's good will of all concerned. He giving me his hand he said I give my life to you. I cannot lose in your hands. I assure the early communion of our union, remarking that Christianity is not belief for Christ as they have had but for my visit also, for me. Thought it important that Mrs. Harriet should be with me to secure the same interest. The subject is seconded by my best friend's advises, as submitted for the consideration of her three sisters. The will of the Lord be done.

Feb. 21st, Saturday. I decline to praise the Lord perpetually, forever for the death of the last week. That he has given me the desire of my heart, a solemn assurance, if my beloved, that nothing but death shall part us. Our love ever seems quite full. The period of our meeting is yet uncertain. One plan is to consummate soon our union, then to visit Baltimore, Philadelphia, New York, and Boston. [illegible]... Bemis, [illegible]... Bemis, [illegible]... [illegible]... [illegible]... [illegible]... the time of my return to Christ or whether I visit England or when I have. It is not to return Mend a time in Philadelphia. My studies are becoming acquainted with the meaning of branches public with institutions to be referred to all this. The other is to visit N. C. about a return to be married just before embarking for England.

Reposed today, a sister of the funeral at the Church of St. Peter's, Park. Called in the evening of Dr. Parson who expressed his satisfaction in the recollection of the interview of yesterday.

Feb. 22nd, attended church at Rivers. Woods, Harman by Rev. Mr. Hennell, a sermon by Rev. Mr. Rich. The Lord Rejoiced in Feb. 1st. For the first time walked with [illegible] Webster to the house of God. I unexperienced have been the joy of today. So says Mr. B. nothing but death shall separate us. That the Lord is most in mind as if married. Preparing to meet to finish in full shot tomorrow. Introduced to Mr. Williams, brother from Maine an uncle of Mrs. W. also met his son a son in law in town.
Mrs. S. informed me of the event in her family.

Monday, March 1st. Monthly Concert at the Chautauqua Room of Rev. Mr. Rich. it was good to be there.

Read from the 7th. Strode upon the interest of the Concert intrinsically alone in Connect in the Catalina in the region of Storms that blow off Africa in the Gulf. A stream, yet always interesting also added them upon the encouragement afforded by the sight of the Woods of God, Mr. Webster & others. It was attended during the Concert.

Heard J. B. Adams plead the cause of the Africans, before the Court. He is a man of truth & equity & independence. Many of his appeals being touching especially the liberation, in which the time in both 1837 & 1842, probably the last. That most of the judges had gone to the higher court above I expressed a wish that their judge might hear the pleadings of well known men.

is generally felt. Am more and more confirmed in the wisdom and happiness of the choice of the obligations our sires owed to God. This is the scheme of my heart.

Thurs. Feb. 2d. Wrote family letters, to the family of friends, submitting the question of the term of my return, or of my visit to England, to their discretion, to await their reply. This evening, received the accompanying letter from Mr. R. C. Howard, our Senator at large, in the place of Mr. Webster. He remarked rather significantly, "that I was about to break up a very happy family," yet added, there was something pleasant about it, and yet frequently remarked to Mrs. D. that it was apparently to be the right sort of a move. She did not see but the most appropriate act.

Wed. Feb. 3d. Not very well from rest of Head in the morning. Received the Patent office with Mr. B. family & friends, thus with Mr. M. went to the Capitol to both houses, & spent some time in the Congress Library, very pleasantly with Mrs. M. Then met the Senate Mr. Kilman (clerk) at Bandl's, & Mr. M. with whom I said to her, "I understand all, & approve it too."

After dinner visited the Congress burning ground in an automobile. Dr. Mr. B. Iglesias was quite overcome at the adjoining thoughts of Lincoln with clear words, & I walked alone. When my mind...

The judge instructed me to visit him at Cambridge, where he would be happy to hear me whatever I may be thinking to tell. Dr. L informed him of my intentions to take a member of his family to China.

Learning from Judge Story that the decision of the D.C. was about to be given on the Independant Armistice Case, Dr. L sent me a message to the Captain. The Judge came down from his bench to Mistle to the family of the Armistice, which was quite a compliment in such a place. Mr. W. was present & congratulated Mrs. W. as thought she had been very far. Mr. Caballito also congratulated me in the Senate. Chamber & admired my good judgment & work to the end. Mistle is gratifying terms of the estimable character & characteristics of Mrs. W. Dr. Gravit of London, Rev. Mr. Bush, and Mr. Bush of London. It is hard to put this down. I supposed it had been a meeting never to be forgotten. The effect I trust will last. It is about 11 o'clock. Mr. Bush spoke of the importance of prayer. Br. Bush said it was because it had been in this country. The time to remain, not to leave this land as is seemed to feel all the time. Mr. Smith comforted his feeling with former occasions, and upheld to fully reflect.

This morning I enjoyed great delight as returning my recreation to G. W. — improving his history and all perceiving grace before our fall for all coming time. Friday, April 16th. Dined with C. E. Ballou and with Dr. Parkinson. Visited Judge King at Cambridge, from the Senate and College Libraries. The Judge showed me as chairman of printing executed about 20 years after the invention of the art, before the press - ink and paper unguessed at this day. Now the city of the Printers! Founded by Buchanan.

Sat., April 17th. At 20 I set out. Met Mr. P. as accompanying me to the ships through the good kindness of Mrs. P. R. S., who has been devoted to his kind and pastoral attentions. We started, remembering as in the church before the throne, that the grace may give me strength and the all-blessing lode of my heart before I return, or the sea may open its yummy haven, that the may like my body may sleep low down upon the bed of the ocean, done with my toil, but reflecting that the who determine all their things and make happy in can lifting all to the faithful chief.

Mon., April 18th. Slept here, I the stricken proceeded a train from Boston to New York. Most of the children by fire. The old customal motion of the thorns also affected me. I turned, I cried to a decent position.

Sun., April 19th. At about 11 A.M. discovered the low coast of. It over the track arrived at the welfare at 6:20 P.M. for description of the coast and a ship letter to Mrs. H.

Tues., April 20th. Wrote what beautiful yesterday 3 to stay a very little distance went. Drafted my affectation to some 2. I have had but any little enjoyment in foreign.
April 21. '44. Wednesday. This morning light had once more glimmered down from the Father of Lights, a penetrating radiance of the 2d Eolution. It had illuminated the Sacred Page and refreshed its inspiring truths upon my soul. I felt myself like Jethro no longer the Angel in shining garments, but was enabled to pray, to my minister and away to gain one change of garment (Gen. 31:) over the robe of a Pharaoh's highness. My new joy commenced & the breath of prayer ascended. My soul was all subdued to it rejoiced in God. I triumphed in the belief that the plant of nature's planting, earth shall not eradicately. The hour in which the germ of spiritual life once brings up shall never become grassless. The blasts of temptation may with it the marks of worldliness may break over it, but like the oak whose boughs the tempest breaks off, struck it roots the deeper at every blow, or like the rock in the ocean still lifts its unshakable hand above the billows, so the soul unconditionally given to God shall arm stronger by all the discipline to which it is subjected, & this in the engraven on our hearts the Christian and the missionary song tell, He is made I shall lift him up. Lamb of God! I will keep in thy name, to the transporting shape whereby that my spirit shall not be in fruits to the churches of England, to the cause of China. My soul has also been drawn forth in an unlamentable manner for my dear earthly love. I put her disappointed matter, she with Dr. Smith, with a holy principle goes most cheerfully, one by one, to lonely & to her friends or dear, to the cause of Christ in China. May multiplied blessings attend the evening of her days on earth.

A.M. We are now getting through the gulf that separate
from the Great Bank, but the wind is fresh as we are proceeding
on our way at the rate of 8 Knots. My sleep was disturbed by
a sound sleep. Have read the book of Happy's Zeph. 1 in a
measureless degree. Enjoyed a short time of prayer. May I may with earnest
prayer.

April 23d. Friday. Fine, sunny weather but continued through the
week thus far. The day but treated with little improvement. Indeed,
it belongs to the number of my most pleasant days. In the evening con-
tented myself with a little reading of the book of Proverbs.

One week from Boston. Read with much delight the
Luke 18:19 to 23. The word, fed and perceived at the words
of Jesus, in my own fortitude enabled to take about great
obstacles to enjoy pleasures. I am reminded of a fresh light from
the conflict to find the common error of the Christian in this
life. Enjoyed the word of the Spirit in praying for my best
self. My soul rejoiced that forgetting the past, it could not
stand the way find the evidence of her a displotion in present

in my deliver my after self.

May 14th 1867. Good the day at 3 O Clock in London.

Received a note from Sir H. Holland saying that he had called on the Duke of Argyll, and was supposed to say that His Royal Highness would have great satisfaction in seeing me at Remington Palace any day if please to call and that he should be treated as for an other twenty to be afforded for me to meet Sir W. Pakington, British Minister to China.

This evening have had a delightful service at Zion Chapel at a Missionary Conference. Addressed the crowds assembled in a brief address with some facility to kindness. May the Lord bless me and make me a blessing to bless my Lord God.

May 15th Sat. With Mr. ASTMEN, Aner. Prined to the court of Siamese attended the Exhibition of Local Arts Inc. at Grantham, visited the Duke of York, in the room - Mrs. Kirk Patro and Christabel.
Chapel A. M. at 10½ i.e. 10 Reid. I attended
Mass at St. Paul's this afternoon. I heard
the Rev. Dr. Barlow Rector of St. Gregory's Chalk.
Ind. Southw. The correction of children's defects
from Arnaud. An excellent & comprehensive
sermon. My disappointment was great
on hearing such a sermon. It deserved in my
just turn, to be more held up. This was an
unArnoring factor. The singing & chanting was
elegant. The assembly numbers a large
quantity. At the commencement of the 1st verse
the doors were closed: the noise of feet in the
central court level with the noise breaking upon
the voices in a hubbub. At it descended in the
crowd of the Cathedral. This is the Cathedral
Church. The Rev. R. H. B. of St. Ethel
preached; the bells that are there
will soon annul the notice & also the
building itself, but that of St. Paul's Cathedral
is grandly. I turn round to this following
thought: [When I go to St. Paul's Cathedral]
I behold the bust of Howard with the
key of the prisoners in his hand. The coroner's
commission. Of the prisoners in the his

I am reminded that this is the soil in which
Philanthropy first flowered. When I hear the
Royal Highness the Duke of Sutherland, England
has redeeming qualities I believe it. When I hear
of his Royal Highness the Duke of Edinburgh going
in the £2,000,000 a year to a single object of charity,
I am convinced that England has lost her dignity
and her wealth. And when an object so
great, so good, so noble, is without any practical
ability to give more than its intrinsic
enlightened medical and surgical practice
to the millions of Chinese this fond hope is
cheerful that it will be lent to.

This evening attended the church at St. John's in
Brindford Row. Threw the Herr Bob. Oak
John 3:16: 10.11.12, an excellent sermon. He
spoke upon the greats he bestowed on the Yung
"No personal duty in important but to be taught

A true work of art in the form of a manuscript is a treasure of knowledge and wisdom. It is not just a collection of words, but a manifestation of the soul's creativity and expression. In the passage you've shared, the author reflects on the value of art and its contribution to society. They mention the power of art to move and inspire, to evoke emotions and provoke thought. The manuscript is a testament to the enduring nature of art, which, like a work of art, can be appreciated and understood in many different ways. It is a reminder that art is not just for the wealthy or the elite, but for everyone who is open to its beauty and meaning. The passage also highlights the role of art in society, as a means of connecting and uniting people across generations and cultures. Overall, the manuscript is a profound exploration of the nature and importance of art, and a celebration of its power to enrich our lives.

Jan 29th Can. At 11 ac Am. took the rail road cars for "Versailles" to visit the Palace of Versailles which was begun by Louis XIV in 1664 and completed in 1702, about 140 years ago. The entrance is to part the main entrance by "La Rotonde." This palace is said to have cost Louis XIV, later 30th, £300,000. It is a fluting effect to conceal from the King's eye the accounts to be covered up for the various portions of the interior work of "Vaux." Edwin Saltmarch's Guide to Paris. The paintings and statues and architecture of the Royal Palace surpass all that I have ever conceived of anything grander. I seem to be in wonder and admiration. Paint, gold, art. The palace seems to have thousands of years in a few hours to be a confluence of many centuries; it is to be considered with the most distinguished acts of the great Emperors of this great Empire. At Fontainebleau, I held my entrance. After witnessing the burning of the coronet and the concluding ceremonies of the coronation, I had the opportunity of seeing Rome.

During my stay, I was given friendly treatment. From the rude hand of the people, I had to rely for food. I published the achievements of the Egyptians. The curates of the prominent priests also met me. Among them were the Kings of Prussia, the President, the Sovereign, the Royal Archbishops, some 80,000 citizens, and thousands of people in the public gardens.

This visit to the Royal Palace during the week, the interviews with the Kings, the ceremonies, the day an event in my life, and that will be dedicated to in future times and distant lands with delight.

Returned to London at 8 o'clock. On having left G. at Seven, I found a letter from Mr. Colledge, containing a "grant" of £70. to meet the expenses of my visit to this country. It affected me very much being utterly unlooked for. It feeling very much I had had few funds to carry out my plans. This truly aided me considerably in the period my visit to Eng. I then was involved in a rush to get to London. The Lord has heard my prayer in the matter to give me some signal blessings that should enable my heart to return with gratitude. But I must help me to give my all to this cause. Amen.

Friday. I went to the President & to the Senate.

At 6 o'clock Uncle Dewall called & took me into his office & carried me to see President Tyler. A colored man met us at the door & asked for our cards. Having announced us returned to conduct up to the presence of the Chief Magistrate, who shook hands & saluted cordially with each of us. I sitting down upon me a chair at his right hand. He was exceeding affable, made kind inquiries, inquiring my residence in Chesaapeake, went to England & France, & the probable result of the English & French war. I spoke of his increased care & responsibilities from the recent political changes in the cabinet. It was proposed to receive a letter the evening from Judge Morgan, stating that he had just received a letter from a friend in Virginia; it would not be able to come to W. till Oct. His friend, Atkinson, was made to lunch with him & Judge Tyler. Mr. Cushing & Choate Brooks, wealthy merchants, Emerson, wealth of Cal. Perkins, Cushing & Lord & Judge Appleton had written a long able review of Judge Story's work. Outing from being in London, he said nothing. I wish & mean so.

The hour has been exceedingly agreeable. I have seen Mr. W. as the private friend, in one of his familiar moods, by his own fire-side, without any restraint whatever. Puttin' he said, "make my wishes to Mrs. Parker." I can hardly refrain from a comparison between the two Statesmen. The one a plainer, more intellectual ordaining more evidently conscious of his inadequacy to the high office he holds, the better of his mighty intellect & power to grapple with any subject.

Mr. W. thought the brave nature of the Duke of Wellington for the preservation of his life, the best he had ever seen. He relates the long & amusing story to Mr. W. and relates an anecdote of his. Writing a letter, a Duke for the Duke of Wellington, and when he came to deliver it, the man said, "What? Halford, Halford?" He came to Prof. Salisbury's, sincerely welcome!"

Dec. 31st, 1841. 11. 35. I withdraw a few moments for my journal before this year closes.

O thou, who art from eternity to eternity, whose existence is unmeasured by the flight of time, permit me without me, to recall the incidents of the past year in indelible associations with their own summar.

To thee, Foremost of all events, one whom before I had only incalculable to thy presence had been, it is for me to tell it among all thy miracles for this I especially punish thee. And may I not appeal to this, that this one whom I have loved one thou hast given me, thy most beloved thee to thy service Christ! And now O My Father, who only kenver with whom we shall be at the close of another year, mercifully accept the last act dedications of thy servant I know mine to thy service a glory. In the morning attended church with the family atReturned
Transfiguration at the Nite at P.C. Springs since which
I have been with my domestic. By time I wrote to
now have turned from the present to my former
expression of my state of feeling 9 years ago in antici-
pations of the event of leaving my country for China.
Impressed with the contrast between the future visor
of my missionary goal & destituteness here & at the
present moment; I aim now framed to explain
how but the gold becomes atoms & the fine gold

eye of God in the Jesus can forgive my sins.
Hurt my backrinding, but take me to his feet
again I once more climb his ladder to stand
in the distant temple of his, my final body.
Oh that I had never lived a day without this
entertaining my entail, or ever suffered a day
to pass without an entry in my journal. I
might have been by his grace fitter in this to live
on earth, I preferred to dwell in heaven, but I am
only fit for his recompense, to be made a monument
of his conquest. But this is my hope, that with God

The 117th year of my professional life. The growth of the Church, the spread of the Gospel, the salvation of souls, the work of missions, the establishment of schools, the maintenance of hospitals, the relief of the poor, the education of the young, and the advancement of science and culture. All this is done in the name of Jesus Christ, the Saviour of the world. May I be permitted to live in this world, to labour for the advancement of the Gospel, and to see the day when all men shall know the truth and be saved. Amen.
And we both observed a season of special prayer, each day
or at least three times a day, till the end, with
me, and my wife, immersed in prayer. It was to this
mentally, the in the
Prayer, or in Congress. I will also return my govern-
ing to the Lord, that my utmost may be the same.

March 28th. They have been richly rewarded for observing the
resolutions of yesterday. A part of the day I passed going
out of the town to have accomplished but little compared with
what I sought to have done. Agreeably to invitation I beheld

March 29th. 1st Anniversary of our bridal day. This has been a happy, profitable day. The return of the hour of our marriage was observed with prayer & praise, & renewed dedication of ourselves to Christ & his cause. The bridal ring has been returned for this day, when the following feet were to have been taken.

March 30th. O that at last with Paul I may say I have fought a good fight, have finished my course, as I know I have a crown of glory which the Lord Jesus Christ shall give me in that day.

March 31st. Dined at Mr. W. M'Intyre's, returned at Rev. J. A. Vaughan's & met Mr. Shelson, Rev. J. Finlay, Rev. Dr. East. Bought, for the boys, five new books. Brethren and Medical gentlemen, all of the Episcopal Church, Mr. Vaughan declared that the Committee of their Missionary Board might have an opportunity of learning more about the prospects of Missionary effort in China. It was most happy in the opportunity of commanding to this class of Christians the claims of China. May the Lord add his blessing. B.B. 200 families have been hunted out of here to send this afternoon! The Father of Mercies have compassion upon them.

April 1st. Have been occupied in attending to my outfit for China. Have had less spiritual enjoyment than in a visit of former times in preaching, have two applications to address to S.S. Mrs.震动, in Dr. McCalley's in Peking. Dr. Rev. W. B. kept fast. Ev. in Rev. W. B. preached a week from Luke 14. The Lord be pleased for their opportunities to preach to them.
April 12th For the last twelve days have been unusually
occupied as to be in the presence of my commander, excepting
for a brief period in the evening.

For many years, I am reminded, have the impression
this morning made upon his mind the words:

"Faith is the greatest thing in the world."—Deut. 11:2

This seems true of the Jewish people in Israel, without known rest in glory.
Canton. 7th Mar. 1843.

To day this evening received the affecting intimation of the sudden illness of a most tenderly loved sister, Catherine, which leaves me hale that this is any longer alive. The overflows of my grief have been irresistible & abundant. This evening has become one more epoch in my earthy existence that calls for note. The thoughts & emotions of a much longer time have rushed through my mind & within the past three hours. The world & all that is surely worldly & dissolved to an atom, lighter than air & my afflictions have been to me as a brake in the cloud, through which the sky is seen beyond & the deeps of the stormy ocean is all below. Thoughts & deeds emotion have all been & can be forever forgotten to be distinctly & constantly recorded. So now, however I would fix indelibly upon my memory I know, I despair that a strong & tender tie to earth has been severed & that pure & strong & tender earthly affections have been sown but rejoice & cherish the sword that the dust now sustained on earth is transferred to the side of gain in heaven. I feel that one more of the covering of time is complete. That one more soul has fulfilled its destiny. That the designs
The Saviour death as it reflects my
vindictive spirit have not been defeated.
That the Lord made willing in the day of
the Spirit, prove. That the Lord made the
subject of renewing power. The spiritual
worship, the conflict with remaining depravity
within, the influence of the world without was
entirely upon, a great inward historical. That
the Lord spiritual other wind to rescue from
deviation from leaven, that it is by suffering
the will of God, that finest may glorify her
that the could cheerfully acquire it this her
allotment, often through all the darkness of afflic-
tion as revealing to her world of light, never-
been so distinctly, in the day of health, perfect
profitability. She had an enlightened permanent
love for the Redeemer's Kingdom, rejoiced to
considerate her only brother to the advancement
of that Kingdom among the brethren. My thoughts
related to the days of our childhood, and of
my maturity. This can begin, continued a new
era, and effecting thoughts even up that my
own began begin hers is also advancing
to its exile. And this is the important period
for which I am regarding another fresh
thoughts, I derive from my in most soul.
Odestrer of hearts, know and witness!
Siize upon the mighty in full of this affliction
to give up the armorer already over to make
his dog a new floating point & then let
and if Almighty grace it lay aside every night
or medically those that most easily hurt me.
I to tell myself anew to the work for the
accomplishment of which I have left. Come
and to lies I die without a brother or only
brother to smooth their dying pillow, to
close their eyes to benediction. From this high point
of observation I am in the light which through
the medium of this affliction shines around
me, to see their lines, very written indeed when
not a material wall, deeply traced in legible characte-
tics upon my mind, increasing of prayer, by the
Holy Spirit's power that of anything worse, of
consequence, is to be accomplished, before
e all the purposes of the Jews of to. Concerning
me too are fulfilled, it is now high time to
arise from my lethargy, to apply myself
new to prayer, to a close and humble terrestrial
walk with God, or content to live undone,
what with more self denial, to grace assisted
effort, may be effected. Spare me, O'er. Ministas,
my sword & handmaidens, Most Merciful
Father! To do something yet for the Lord Jesus
& for evangelization of China before we
go to join our Sifter in the sky's Aman. Aman.
Mar. 8th. Find a calm has succeeded to the tempestuous emotions of last evening. Could with difficulty compose my mind to think right. I intended to lay down this morning. I find however changed my feelings in the midst of the world. Without it was altered. My tendency to walk the old Christian path & to reject all things that are bad & unclean. But no course or course that will stimulate me onward. Felt from little pleasure in the morning before entering upon the operations of the day to think I was going to do something for the benefit of God's children. I felt he would accept it as a token for love. Felt new pleasure in lifting up my supplications to God for success in my operations. From hand with delight the last of I Cor. 2:7, I Cor. 2:8, with Dr. Bridger's beautiful Improvement. I with Mr. Lowrie enjoyed family devotion. I fear I shrink from the thoughts of my affection, making me no better. Good Lord punish. I smother my sorrow. I give up my love to you, Lord.

Mar. 9th. Have been indulged with this day. Have engaged a number of grace helping me to keep my resolution to amend. Found a pearl in reading the 1st Psalm. Keep your heart in the love of God. I am, when I Dr. Bridger remarks, the rich one comfort of the soul in all its afflictions in the love of God. Everything gives me this comfort. I feel that I...
I have indulged in wrong expressions in my
impressions at the absence of my beloved, I think
my heart disheartened a 'jealous God' who will
thrive our affections with no idol. May I feeling
the error correct it. May our yoke and burden
be smothered in the Lord with love of God, then
shall we truly be affected by any of the changes of
time.

March 11th. Have been somewhat indisposed yesterday, to
a quite disturbed. Merciful Father, dispel the cloud
and let me yet enjoy the fair light of Thy countenance.
Comforting tidings to the improved health of my
absent one. May God continue his merciful love.

March 12th. Dear Br. Mocton left us this morning.
Near home I enjoyed Christian fellowship more
than with this dear brother during the past
two months. I would it could be thus forever,
but for the sake it may be momentarily. Br. Lewis
preached an interesting sermon this morning on
the text "Tell greater than Solomon is here." I do love
to hear Christ magnified. I may fear "inde
esalt his word.

March 13th. Sat at home. The past has been a laborious,
a mentally interesting week. God has signally
enlightened upon efforts to benefit the Lord. On the 14th,
the little boat was called a tumour from the
grain. At a young moon twenty-five. "Thou dost not...."
A bloody character gave me an unusual sensation for the result. This feeling of attempting to remove it from my closet. A bound from the bended wall in one room that I went to take the knife in another. God heard the petition's appeal. I to him the young man for delivering from the bitter, was directed to give thanks. To the same Merciful Being, my own heart utters with gratitude. As often as I think of this case. Another still more formidable is before me. Being the same. Give of any good gift! I am a favored blessing in 1830. He for him also.

To day I am called upon to act as interpreter on the occasion of the Hon. Chow for's visit of ceremony to Corin monre Newyork. This Excellency was very friendly indeed, & the result of the interview trust will be for good to both nations. Received a call from a son of an officer in the city to-day. Presented him with a Christian tract by Dr. Niles. Dialogue between two friends, in which the fundamental doctrine of Realities can illustrate. A call of Mr. Almonwick, son of Dr. Almonwick, a Chinese intelligence. May God accompany
Here with his blessing, I come a chair for the first gratitude, in account of the
restored health of my beloved companion
of my journey. When I consider how many
merits I am receiving, I think how
carful could he be in my condition, then
the table he turned, to let the chosen
of so much kindness, should be forgiven
the Almighty God! I could not
prevent it, Merciful God.

Taking up a page this morning noticing
my return to China, my eye fell upon
this sentence. "The blessing of thousands
his countrymen will attend him to the
end of his voyage through his useful
life." I understood it as referring to their
prayers, and it was a peculiar reminder
to my spirit, reminding me that as
the driver of this well, I should be no
less willing to do good to glorify God in China
throughout the world. Amen.
June 18th 1843. Thirty Ninth Birthday Day.

(Sabbath.) Gliding along the stream of time, I desire to reach some suitable long march as year after year is completed. Thirty three years of my time on earth is past. A reflection repeats itself: more intense than ever shall be described, etc. It admonishes me that my time is short. I must rapid, that it will soon evict my thoughts and whatever I would do must be done quickly. My time and all my talent (as the name) in thy hands. I implore (let my birth date and real mild articles) how long may I expect that in the ordinary course of this physical machinery, will it last? But now and my long latent may remain the fuel of a consummation of our engine. I ask not for a pleasant existence, how rapid are to be the increases of the elements and my constitution with the attributes of the power. Thus the ability to violence, to accidents, to sudden fate, whereby, all bring me back to the original point. O Lord! my times are in thy hands. Thy word.
This life, as in the divine thoughts to tenderness to live at 1/2 each day were my last. I yet at the Firing line to the age of 70.

But alas! if I am growing less prepared for human care, why not seek to Lord to take me from the coil to come, because there less humility, less humble strength, but actual reliance upon the divine grace there when first I moved the Lord, spoke to the Lord. I he would put me into the ministry of his man. I thought there mine should be the blessing that attends even that word inscribed into the most humble instruments that would walk fifty before the Lord all my days.

But Tarry how I failed to fulfill all the vows I had made in the Lord. A pension of what now like charity upon can old the inaccuracies upon my old by hardships the degree, the habit of night's occupations was been enforced, by the irregularities incident to the country, I by the inharmonious only
of serving others. Climate, executions, from excessive labors, has made their dwellings such that appeals for the middle or a lower mode of life than would be thought of for a moment by a mind of the sort in a different climate under different circumstances. The luxurious
work that has fascinated millions, but
wrought itself into a cable about my
neck, I like a corroding cancer,
with much time, harrowing me by the
under world of it, or calling me by the
name.

The practical questions of what more can
I do with the time? have been involved this
day. How to have new books, i.e., in place
to continue, for the most part, for my
mind for the future so far as my heart
had considered them. To draw on in the
hospital, writing the poems for the literary
people (kind of dethers, in thousands
of words), and alleviating much
terminally suffering. They all claim
to my appreciation. But this
may not be the most profitable

Let that besides the great & many first of which I can foretell there may be others that stretch my heart. Search me & know me if there be any latent evil way in me: try me & know me.
And O my father whatever of my deeds are lawful, then will they grow, desiring holiness for holiness sake, may's cherish the desire, strive to attain it of meeting the seeing & Love of all virtue present, at one whom spirit is quick, whose department is arisible, whose life is irreproachable, whose motions are pure, whose understanding is the gliz, on this occasion, father, let our petition more arise, I present. And if the terminating father of our heart be still for us, it is according with thy meaning, shall go out it for thy beloved ones sake, The will our gender shall to the father the first of thy kingdom, and at least and in thine beginning, or ever.
June 19th. Rose at 3 o'clock this morning. 

I have enjoyed more spiritual comfort these three days than for a long time. Here among the patients at the hospital I have endured much. I will endeavor to keep all I have done to the will of God. I have been enabled to keep my body under. I to make a decision mixed with all sorts of my instinctive habits. What dolore & frustrations will a general wonder bear to achieve a victory, or yet the conquest over one's lustfulness? May be for men more important to him. If I have a general I would to we are a bromous thus live a deaconly cowardly. Why then ask a father of the curse & one who has a legion of criminals in his own bosom to be blame, am I to hide off their presence or indifferent to their power? When I have a just sense of the magnitude of the Christian warfare within, then I will till the seed shall call in almost grace to aid me. Blind labor! let me come off congruous or I'm made through this power. Rely on it with hunger this night. I cannot see in the spirit & grow for the contest in the morning.
June 20. Day. Great fatigue. Had been engaged in the divisions of the morning. Too much work to have any lively emotions that evening. Had some true feeling, inward low kindness, inability to think a good thought, much like to perform a holy action. Neglect that my sufficiency is in God. S. felt it would not bear it any longer when she.

Jan. 11. Rose 60°. My heart had been grateful to God for the pleasure of a humble, refreshed body and mind.

Have had an affecting sense of the burden of life's toil and conflict. Felt that but for the sustaining presence of my conscience would fail, I did not. The grace of God present. June 23rd, Sat. Eve. Wednesday night. Around Thursday 9:00 PM, I in the evening of Thursday, aghast to the crowd to the hospital. Hospital stay was extended. Tired. Mom still unable to discerning.

My thoughts at the hospital took an excursion to Toronto. This morning felt so much better as to be able to perform duties.

But this has been followed with exceeding,precedented. My mind has darkened, at the loss of my religious experiences, but not been

In a few hours more it 1843 will be completed, and I must bid it a final adieu. I have this day received from you, Mr. H. All the day of my appointed time I was not till my change came. And now before the hour of this Sabbath this year we are all told, duty to indulge in some reflection of the past in forming some resolutions for the future. Another year signified by divine providence I find exceedingly

shall receive full gratification from my heart. The year has really a year of toil and hard labor, but agreeably as has been my instrumentality God has been pleased to crown it with his blessings. As in former years your respecting patients have been added to the list of nine thousand treated in former years, making an aggregate of 13,000 or there. It has fallen to my lot to experience for the first time the pain of seeing a patient perish upon the table, with indescribable to prolong his life. I have been called to experience the currency of pain departing me. I shall in a great measure for several weeks. In August a debt had two machines Whiting, one on either hand, accompanied with other medicinal paint.
These experienced a most merciful tempest, while departure from the haven. On the 24th Oct. I was visited by one of those frightful convulsions for which it is becoming distempered, reducing more than a third, and desponding to think it at length with my beloved companion, arm in arm, relived from the approaching gloom with the principal & immediately apprehension had we should never return to it again. But through the divine goodness we are still found in their situations. The pilots of friends have visited this dwelling death but not been permitted to enter the haven which it has however invaded the circle of dear friends & beloved friends. This brother J. R. Morton is no more but the Lord I get now shaded by his side.

In respect to my missionary labor, I have been permitted to see some advances. My senior pastor has zealously united for Christian in more than a score of instances. I had removed with him & went a season of discomfort tonight. What has afforded me the highest satisfaction, the great object of preaching our themes to join in family devotion & leading the scripture has been gained, thus they are not yet willing to bow the knee to God.
Whilst nothing so pleasing to delight an exercise in uttering all that God has done, scrutinize and consider if my mind is directed inward upon itself. My callous feelings, my formal devotions, my eager heart, my willing mind, will me with pain to encounter before my Maker. And I most solemnly record my convictions that all the ill I experience, flow from one source, sight of fasting and praying with emotion unutterable. I record my heartfelt desire to God, to enable me to concentrate my full attention to this neglectful duty. And should this opportunity thus arise to fill when these lines at the close of 1874, may they thus turn upon "Our Father in the Throne," and praise thee for thy grace. And if nothing but express is built before God, present me from using the means of grace, which journalism may be to the Christian missionary.

NB. The cable alluded to in journal of 1872, June, has been snatched at the end. Pray us to the Lord.

Jan. 1, 1874. A New Year. With all the intention of the same, and the fullness of a day, cloudless atmosphere, bright commenced. The day was commenced when the basket was ardent. I have been chiefly spent in writing the remnant rest of the mission, and I have carried the

Of course the falling influence of a closer walk

Jyn. 5 d. I can only record the sense of the God

administration of the great supper and the

Jan. 11. Several days I have neglected without an entry in my journal because I inability to do it without neglect of other duties. Let us administer the Lord's Supper to poor individuals, proceed with a brief historical notice of its observance in the 1st 2d 3d 4th 5th 6th. Centuries. As the century. I found with obligation to God. And the Bible declares to us the true design of such modes of the institution. I feel that I am beginning to lose the watchfulness and prayerfulness with which the new commandment was again affiliated by sickness entering my family in the person of friends and guests. Sister Frederick Bell, has been alarmingly ill with catarrhal fever but God seems to be mercifully restoring him. Oh! that he may yet like to be a blessing to the church and to his unnumbered neighbors of God. Oh! that I were as in thecoop wherein by the divine lights I walked there. And knew all in the lights (Job).

Jan. 12. Alarm of fire this evening. The mob. 125 by which a number of families have been sent a home harmless. It is reminded me of my obligations for the preservation of my friends at a loss of my house. But this is not necessary. A team of my defenders on Israel's army. The little one is also consoling. The Lord is praised. Oh! that the God of Jacob may care for our help in a time of adversity.

18th June 1849, Forty Fifth Birthday Day.
In some respects I feel the present to be the most interesting moment of my life.
Or is it possible, that living a blessed life of God, I have lived to witness half of 90 years! I am a
wonder to myself, that though so many changes have occurred, according to
the sickness, I have been permitted to bring out what should affect in the west in the unremembered signal means of my God.
I bless the Holy name, that he not only put
me to live, but to be useful in his service. The remaining moment of this day will not suffice to enumerate my
shortcomings—they are numerous to
Him, though I own I am, this goodness
by humble means, but I must needs to
record his continued faith in my
labors of the Mission of the Oaths to
the Mission of China. I bless his name that
no fear of my labours in the Hospital has
been more distinguished by the magnificence
importance of the operations successfully her
formed, than the love, more such to realize
by encouraging impositions practiced by
the preaching of the Gospel on Sabbath,
and Sunday, I cutting Tuesday, Wednesday,
evenings. It has been my joy to borrow
and another arrow this intellectual considera-
tion of the fulminating truths of the Gospel
and that they daily pray to the Father in
Heaven. I bless God that I live in the
day when the Gospel is increasing
its power, when the revolutions spread,
my heart desire I prefer is that I may
see more and more spiritual fruits of
my labors.
In reading, the 91. Psalm this evening, “The
city of our grace can thin men saved
be,” I feel that there would be a plea
in being the full number of “fourteen
years,” could I obtain all my forethought
and be useful in the world to long.

But alas! the bitterest part of my hard service in a tropical climate, has more in
its action on my constitution, and I look forward
with solicitude to the indurations of the fever I
have almost annually experienced, and feel that it becomes me to do with my
wealth what remains for me to do of
the charitable object; I would like it to be the
Will of God, to accomplish it now. I do,
hence to be then no more. But the debt
putting aside of each day, leave little time
or strength for this accomplishment.
Probable, in acting, half and half
most of my life on earth is now past.
I hope my Favourer will enable me
to begin on that the remaining half, or as it may be called, fulfilling of my life.
I through all that remains, help me to
see clearly the hand of His Provident
left to put some my whole days, and
to his great name be all the praise, I all
the glory forever amen. through Jesus Christ
my only hope, my alone Salvation.
And be careful in your duties!

But alas! The first
